

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, DC, 20554

In the Matter of                    )  
Creation of a Low                 )  
Power Radio                        )  
Service                             )

MB Docket No. 99-25

My name is Dr. Eric Arn, and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service. Currently, both the Senate and the House of Representatives have introduced bills that would expand Low Power FM radio. Changes need to be made to the current rules governing Low Power FM radio service so that it can continue to prosper and grow. The importance of local media to communities all across the country cannot be overestimated. Thank you,  
Eric Arn
